

**Legacy**  
Cart and Roll Stand System

## Legacy OC

Whether you have one device or several components, the Legacy OC is the all around workhorse for the storage and transport of sensitive equipment. Raised shelf edges, and rounded corners ensure safe use. Multiple drawer sizes and various integrated accessories are available to meet your exact requirements.

- Three standard shelf sizes
- Four standard heights
- Durable powder coated finishes

Integrated IV pole is just one of many available accessories.

## Legacy RP

The RP has all of the advantages of the OC while also featuring a ventilated rear panel and additional vertical support columns for enhanced lateral stability when heavier systems require additional strength. Unsightly cable arrays are safely and securely stored behind the easily cleanable rear panel.

- Innovative debossed ventilation design
- Easy to clean recessed panel latches
- Safe enclosure of sensitive device connections

Optional arm mounted keyboard tray provides flexible positioning possibilities.

Secure rear panel can be easily removed.

## Legacy TC

Primarily designed for the transport of flexible endoscopy equipment throughout medical facilities, its versatility allows for adaption to many applications. The Legacy TC has all of the advantages of the OC and RP, with twice the storage space.

- Ample storage space for devices
- Extra large top shelf is a valuable work surface
- Easily maneuverable on large, twin wheel casters

Complete line of monitor and device mounting arms are available. Ask about our **EquiSys** line of arms.

## Legacy RS

The ideal solution for small devices, the Legacy RS offers all the design elements of the larger carts in a simple roll stand. Sensibly placed handle and basket make movement easy and stored items accessible. Several column and base options are available.

Tilting mounting plate provides perfect viewing angle of the device.

## Legacy SC

Not a roll stand but not a traditional cart either, the Legacy SC is an innovative solution for small systems. Cable integration through the central column is possible; available drawers and baskets offer adequate storage. Monitor mounts and numerous accessories mean your exact needs can be met.

## Legacy Cart and Roll Stand System

The comprehensive designs of the Legacy System of Carts means a solution for your every need is readily available. As a modular system, coupled with customization possibilities, rest assured that we can build the cart for you. OEM branding is easily accomplished through color accent matching and custom logo application.
