

Pitch of 32 millimetre increments - the distance between the dotted lines corresponds to 1 U = 32 mm.
This is where you can assemble your individual equipment cart. Just draw in your selection of accessories at your choice of position between two dotted lines.
If you fax the planning sheet to us (203-729-9626), we will check the assembly, give you any advice necessary and send you an offer without obligation for your configuration.

Please note:

1 U = 32 mm

The installation heights (U) of the individual accessories are given in the descriptions of each article in the accessories section (Pages 85 to 141).

Please note the designation or order number of the selected system assemblies or accessories on the right of the drawing. Thank you.
